

**D**ear Friends and Colleagues,  
*In November 1997, Richard Gaston performed the first Laparoscopic Radical Prostatectomy (LRP) in Europe, opening the doors to a fantastic and amazing evolution in surgical Urology that has become an integral part of our routine practice.*

*Since 2004, "Challenges in Laparoscopy" has been our yearly appointment updating the progress in this new surgical field that has changed our way of thinking and of treating urological diseases.*

*In honor of the 10 year anniversary since the first LRP, "Challenges in Laparoscopy" is gathering the best of world Laparoscopy in Bordeaux. Thirteen surgeons and 38 speakers and moderators have accepted to convene for this meeting where a milestone in Laparoscopy will be established. Classical Laparoscopy and Robotic assisted Laparoscopy, applied to the most complex and challenging procedures will be the theme of this meeting.*

*Your time in Bordeaux will have a definitive and sound impact on your future work. Looking forward to meet you in the beautiful city where European Laparoscopy was born.*

# Social Program

Friday June 8th, 8.30 pm

Gala evening at Château Giscours”

The first mention made of Château Giscours dates back to around 1330 when it was referred to as a fortified dungeon. In 1552, the estate was already recognised as a vineyard at this time. The 1855 classification ranked the wines of Giscours a Margaux 3rd classified growth. Situated right in the heart of

prestigious vineyard of the Médoc wine, the domain extends over about 240 hectares, among which 70 in vineyards. It is about one of the most impressive domains of the Médoc wine, in a magnificent standing park of old trees. Giscours passed from owner to owner, going through a period of decline which only ended when the estate was bought by Nicolas Tari after the Second World War. He undertook a general renovation of the estate, one of the most significant works being the creation of an artificial lake, which is today a key element in Giscours’ microclimate. After a run of financial difficulties, the wine growing business of Château Giscours brought in the outside investment and acumen of Eric Albada Jelgersma, a Dutch businessman, together with his family. They have invested in the renovation of the vineyard and the cellars and have increased the capital. Eric Albada Jelgersma today owns 100 % of the Château Giscours wine growing business.
