SURGIQUEST

Dear Colleagues and Friends,
Welcome to China! We take great pleasure in inviting you to participate in “Challenges in Laparoscopy & Robotics 2013” which will take place from June 6th to 8th, 2013 at the Chinese PLA General Hospital in Beijing, China.

The Congress has been one of the most important and exciting annual events for urologists and other specialists interested in minimally invasive surgery. The 2013 congress will be the first official collaborative event between the Chinese and European urologic communities. Following in the established tradition of excellence, this congress will provide the opportunity to experience a broad arena of live surgery demonstrations, presentations and key speeches by world leading urologists specialized in the field of laparoscopy and robotics.

Confucius says: “A friend from afar is a friend by far”. We are honored to host you in China with its rich history, spectacular landscapes and sumptuous food.

We look forward to seeing you in Beijing.
Sincerely yours,

Vito Pansadoro

Inderbir Gill

Yinghao Sun

Climate

In recent years the weather in May has felt like summer, but the high summer season doesn't start until June. July is the hottest month in Beijing. So June is a transit month between the early summer (later May) to the hottest summer (late July). The average highest temperature for June in Beijing is around 30°C and the lowest 17°C. A short T-shirt is all right for the day, but sometimes you have to bring long-sleeve clothing for cool nights.

Information

Visitor Visa Requirements

Please note that China has various specific entry visa requirements. Please check with your local China embassy/consulate or travel agent regarding your entry visa. It is the sole responsibility of the participant to obtain a visitor visa if required and this process should be arranged well in advance.

Letter of Invitation

Participants requiring a formal letter of invitation to enable them to make their arrangements to participate at the Congress may receive a letter from the Operative Secretariat. Please note that this letter cannot be regarded as a commitment regarding scheduling or financial support from the Organizers.

Liability

Challenges in Laparoscopy & Robotics 2013 Secretariat and Organisers cannot accept liability for personal accidents or loss of or damage to private property of participants and accompanying persons. Participants are advised to take out their own personal travel and health insurance for their trip.
